DWR Inspector	Sterling York			
Accompanied By	Joe Conant RD 817			

Summer & Winter Inspections

The Local Maintaining Agency (LMA) is responsible for summer and winter inspections. The LMA is required to submit a report regarding summer and winter inspections to the California Department of Water Resources (DWR).

DWR must be informed on the:

- a) completion of the inspection
- b) any changes other than the results of normal maintenance
- c) corrections to deficiencies noted in this report

If additional items are noted, further documentation of those items must also be submitted.

The LMA should submit this information to DWR using the LMA web application tool available at:

http://cdec.water.ca.gov/lma.html

If the LMA is unable to submit information on this webpage, please contact DWR for assistance.

The LMA should submit the information and any associated documentation by September 30 for summer inspections and March 31 for winter inspections.

Inspector Comment

FS_ID:41156 DS_ID:18989 EP_NO: N/A

Repair Type: Non-Urgent Crossing Status: Indicator Found

UCIP Comments: A burried slide gate found on WS. Need to contact owner to determine status of crossing. If crossing is no longer in use owner will need to contact CVFPB to comply with Title 23. Dense vegetation on waterward and landward slopes limit visual inspection of potential leaks along pipe alignment. Recommend having owner clear vegetation along slopes.

FIELD_STRUCT_DESC: *ABANDONED* 8-inch corrugated metal drainpipe through levee, 11.7 feet below the crown. Slide gate on the waterward end. O&M Manual Sac 146, November 1962. (Permit 16193, 1994, was issued for the removal of this crossing, but slidegate appears to remain on WS toe.

FS Date: 4/16/2013

Summer & Winter Inspections

The Local Maintaining Agency (LMA) is responsible for summer and winter inspections. The LMA is required to submit a report regarding summer and winter inspections to the California Department of Water Resources (DWR).

DWR must be informed on the:

- a) completion of the inspection
- b) any changes other than the results of normal maintenance
- c) corrections to deficiencies noted in this report

If additional items are noted, further documentation of those items must also be submitted.

The LMA should submit this information to DWR using the LMA web application tool available at:

http://cdec.water.ca.gov/lma.html

If the LMA is unable to submit information on this webpage, please contact DWR for assistance.

The LMA should submit the information and any associated documentation by September 30 for summer inspections and March 31 for winter inspections.

The levee is oversteepend at this location. The LMA states that it has always been like this and the USACE did not finish constructing the levee here.

Photo 1 of 2: SP_2017_RD0817_13_10_20170316_00003.jpg

Levee mile 2.08, this photo shows the slope is less than required, this is the downstream limit of the site, this is the waterside slope.

Accompanied By	Joe Conant RD 817			

Summer & Winter Inspections

The Local Maintaining Agency (LMA) is responsible for summer and winter inspections. The LMA is required to submit a report regarding summer and winter inspections to the California Department of Water Resources (DWR).

DWR must be informed on the:

- a) completion of the inspection
- b) any changes other than the results of normal maintenance
- c) corrections to deficiencies noted in this report

If additional items are noted, further documentation of those items must also be submitted.

The LMA should submit this information to DWR using the LMA web application tool available at:

http://cdec.water.ca.gov/lma.html

If the LMA is unable to submit information on this webpage, please contact DWR for assistance.

The LMA should submit the information and any associated documentation by September 30 for summer inspections and March 31 for winter inspections.

V1 : Control annual grass and weeds on the levee slopes and easements.

Inspector Comment

This levee section needs an all weather surface added to the crown and annual grasses removed. Spring 2017.

UCIP Comments: 06/30/2016 Sink hole still exists over pipe on LS. LS and WS heavily vegetated and barely accessible. WS end is sleeved with a heavily rusted CMP. Flapgate is clear and functional. (K. Fazel -UCIP)12/17/2015 WS accessible, but LS no longer accessible due to heavy vegetation. (T. Hatch - UCIP)03/25/2013 Pipe visible on LS at toe of roadway enbankment, but not visible on WS. Possible sinkhole over pipe at LS toe. Pipe heavily rusted. (G. Wylie - FPIIB) FIELD_STRUCT_DESC: 18-inch corrugated metal drainage pipe (CMP) angled through the levee, approximately 15 feet below the crown. Steel pipe sleeved through the CMP with annular space grouted (grout only on the waterside (WS)). Flap gate on the WS end. Pipe alignment is from the west of the intersection of 40 Mile Road and 45 degrees to the WS. Outlet is on the eastern side of 40 Mile Rd (looking upstream). [Additional Reference(s): DWR Levee Log, 2005. USACE Sacramento O&M Manual 145, 1955 (Station 74+72). As-built drwg. 2-4-106 Sheet 4 (Station 74+72)]. Due to a recent change in the levee alignment, this pipe is no longer in Unit 6, RD0784. Nevertheless, this pipe's original references remain the RD0784 Levee Log and RD0784 USACE O&M Manual.
